Dear Mr. Graham:

Thanks for giving me the opportunity to address and correct the inaccuracies of N.B.F. & Green's patent application. I am including copies of the specifications, (clean copy and mark-up copy), the rewritten Claim, and the drawings of the instant patent for your review. Hopefully, the claim has been rewritten to comply with U.S.C 35. 112, and the required drawings are to your satisfaction.

With reference to the letter you sent me, pertaining to 37 CFR 1.125(b), 35 U.S.C.102, "lack of new matter", and *"No new matter may be introduced in the drawing," (for your information) I will reference the patents that were sent, but outside of the drawings.* By the way, thanks for sending copies of the patents, (very helpful), and for your continuing help and consideration.

Sincerely,

A handwritten signature in cursive script that reads "Willie E. Bell President".

Willie E. Bell, President, N.B.F. & Greens
